Anywy, @Psycho I'd disconnect and reconnect your wallet. You can do so by clicking the "x" icon in the top right corner of the screen on PoolTogether and then reconnecting

Psycho 08/30/2021

I tried that already. First time I tried it and it just reconnected automatically so I tried deleting cookies on the website and tried again and this time manually reconnecting. It connected, I tried depositing and I still get the error

Leighton 🌊🏆 08/30/2021

hmm, that is quite strange. I've never seen it before

Let me try to re-create

Worth noting, gas fees are insane right now on Ethereum anyway
